The Role

We're looking for an agile tester for our London and/ or Malmö studio. You'll work on cutting edge platforms with agile processes to plan and conduct functional and acceptance testing of our software products. You'll set up the foundations of an amazing QA team, which you'll start leading as it grows. You won't be afraid of hands on work and you'll like the challenge of building a team from scratch, developing and managing state of the art test tools, test frameworks and test environments.

Experience/Skills

Required:

- Preference for automated testing over manual testing
- Awareness of when manual testing is required
- Ability to source control
- Experience in testing within an agile team (or want to learn how to do it)

- Ability to lead and drive projects and motivate colleagues
- Passion for testing UI and interaction
- Profreshion™ - Professionalism, Freshness and Passion

Studio requirements

- Excellent written and verbal communication skills
- Passion and self-initiated drive
- Desire to be the best
- You're social and enjoy being part of the team
- You want a job that is more than 9-5

Personal profile

- Ability to work in a fast-paced environment with a minimum of supervision
- Very precise and detail-oriented person
- Passionate for testing
- Task oriented and organized
- Creative

What we offer

- Work with a studio that is at the forefront of digital design over a multitude of platforms
- Be a part of a studio that is varied, and employs a complete range of super talent, so you learn a lot from different experiences
- Be part of a truly innovative studio that's interested in pushing the boundaries of digital design
- A platform for the strongest to shine
- Work in the freshest studio in east London or Scandinavia
- Work with cutting edge technology
- A future with a fast growing creative design studio...
